

ADVANCING IOL TECHNOLOGY

Medicontur Medical Engineering is an independent European company in existence since 1988.

With a true focus on patient needs and numerous advances in material, design and optics, the company has emerged as a global tech-leader in providing advanced IOL systems for the treatment of cataract and other ocular diseases. With more than 6 million intraocular lenses implanted in over 50 countries, the company is proud of its established network, partners and employees.

To support the growing market demands, Medicontur is now looking for an ambitious

International Registration Associate
